OF EMERGENCY SERVICES

SITUATION SUMMARY

Castella Water Tank Rupture, Shasta and Siskiyou Counties

- Per Cal OES IDO: The community of Castella had a water tank rupture on 10/08/15. They are currently under a boil water order with samples expected to be taken on Monday for testing. State Water Board Division of Drinking Water is aware of the situation.

City of Yreka Water Main Break, Siskiyou County (Final)

- Per Cal OES IDO: A water supply line suffered a break on 10/09/15. **Update 10/12/15, 1708 hours:** The City of Yreka today received good test results on their water supply. The Boil Water Order has been lifted and Fairchild Medical Center is back on city water.

Knights Landing Community Services District Well Failure, Yolo County

- Per Cal OES IDO: Knights Landing Community Services District (CSD) reported a well failure on 10/12/15. This follows a separate well failure several weeks ago. The CSD is now operating on one well. In support of Yolo County and the CSD, Cal OES is coordinating with State Water Board to investigate funding sources to support repairs.
- Yolo County EOC at Level 2 beginning 0900 on 10/13/15 in support of Knights Landing CSD Well Failure.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A warming and drying trend can be expected through much of the work week. Temperatures will reach well above normal values today and Wednesday for interior locations. A weak front may bring light rain to the region on Saturday.

Medford Weather:

Sunny weather will persist across the region along with abnormal warmth through midweek. Thursday could be the warmest day over inland areas. A sharp change to cooler weather is expected on Saturday as the front moves through. A chance of precipitation is expected and a slight chance of thunder east of the Cascades Saturday afternoon.

Reno Weather:

Strong high pressure will remain over northeast California and western Nevada through midweek, bringing well above average to near record high temperatures along with mainly light winds. Low pressure moves into California and Nevada Thursday and Friday for cooling temperatures and a chance for showers. This cooler and showery pattern may continue into the weekend.

San Francisco Weather:

Warm and dry conditions will persist today as high pressure remains over the region. An upper level low will then approach from the south and bring a slight chance of showers and thunderstorms to the central Coast Wednesday and Thursday. Dry conditions return for late week with the next chance of precipitation expected on Saturday over the San Francisco Bay area as a frontal boundary pushes through the region.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Hot and dry weather continues through at least midweek, approaching records. A weather system moving up from southern California may bring a few showers to Sierra Nevada late Wednesday into Thursday before a frontal system brings widespread shower chances over the weekend.

Hanford Weather:

An upper level low will slowly track northeast toward central California today and Wednesday and move through the region on Thursday. This system will bring slightly cooler temperatures to the area by Wednesday along with increasing chances of showers and isolated thunderstorms on Wednesday and Thursday. Another system will push through the region over the weekend bringing another chance of showers to the area on Saturday night and Sunday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A low to the southwest will bring possible shower and thunderstorm activity this afternoon through Thursday evening. A slow cooling trend is expected this week with near normal temperatures by Sunday. A second low to the north will arrive Saturday and bring possible showers from late Saturday into early next week.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

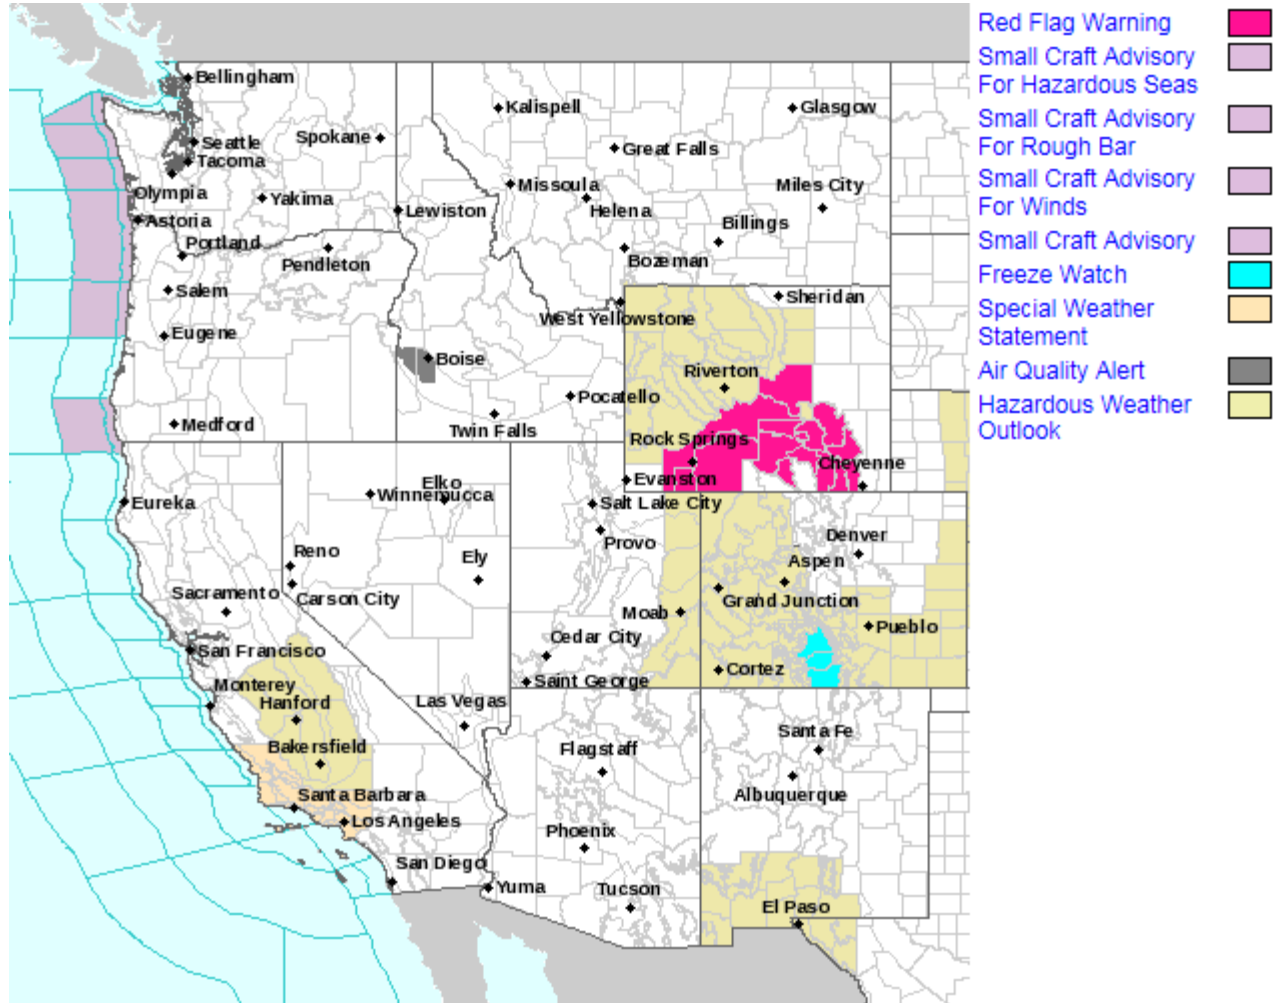

A low pressure system to the southwest will move slowly inland through central and southern California Thursday and Friday. This will bring a chance of mainly afternoon and early evening showers and thunderstorms, mainly for the mountains and deserts, beginning Wednesday afternoon and continuing into Saturday. A second low pressure system from the northwest, with greater uncertainty, could bring more widespread precipitation for Saturday night into Monday, possibly heavy at times on Sunday.

Southeast California Weather:

A strong high pressure system will be in place through Wednesday for continued unseasonably warm afternoons. The high pressure system will be displaced by low pressure Thursday through Monday. This will result in a cooling trend and a chance of showers and thunderstorms each day.

STATE WEATHER MAP

Last map update: Oct, 13th 2015 at 10:43:09 am MDT

FIRE ACTIVITY

FIRES, SOUTHERN OPERATIONS AREA

Cienega, Vegetation Fire, San Benito County

Location: Cienega Rd. x Lime Kiln Roads, Thompson Creek area, South of Hollister

Jurisdiction: SRA

Start Time: 10/12/15 at 1600 hours

Per CAL FIRE, Cal OES and/or ICS-209 as of 10/13/15 at 0645 hours:

- 300 Acres, 0% Contained
- Critical Rate of Spread
- No current threat to structures or infrastructure
- Powerlines down
- Heavy fuels, steep terrain and limited access

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
